Question Label : Comprehension

Study the pie chart and table and answer the questions

Store	Respective ratio of number of linen kurtis to cotton kurtis sold
A	7 : 5
B	5 : 6
C	3 : 2
D	5 : 3
E	4 : 3
F	7 : 3

Distribution of total no. of Kurtis (cotton and linen) sold by six different stores in 2016, where total kurtis sold are 84,000.

Sub questions

Question Number : 1 Question Id : 177795105 Question Type : MCQ Option Shuffling : No Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 4 Wrong Marks : 1

What is the difference between average number of linen kurtis sold by stores D and E together and average number of cotton kurtis sold by the same stores together?

(1) 2920

(2) 2880

(3) 2940

(4) 3060

Options :

177795401. 1

177795402. 2

177795403. 3

177795404. 4

Correct Marks : 4 Wrong Marks : 1

There are two numbers which are greater than 21 and their LCM and HCF are 3003 and 21 respectively. What is the sum of these numbers?

(1)   504   (2)   508

(3)   514   (4)   528

Options :

177795413. 1

177795414. 2

177795415. 3

177795416. 4

Question Number : 5 Question Id : 177795109 Question Type : MCQ Option Shuffling : No Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 4 Wrong Marks : 1

Mr. Seth inherits 2505 gold coins and divides them among his three sons : Brij, Purab and Mohan in a certain ratio. Out of the total coins received by each of them, Brij sells 30 coins, Purab donates his 30 coins and Mohan looses 25 coins. Now, the ratio of gold coins with them is 46 : 41 : 34 respectively. How many coins did Purab receive from his father?

(1)   705   (2)   950

(3)   800   (4)   850

Options :

177795417. 1

177795418. 2

177795419. 3

177795420. 4

Question Number : 6 Question Id : 177795110 Question Type : MCQ Option Shuffling : No Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 4 Wrong Marks : 1

Given below are two statements :

Statement I : The perimeter of a triangle is greater than the sum of its three medians.

Statement II : In any triangle ABC, if D is any point on BC, then AB + BC + CA > 2 AD.

In the light of the above statements, choose the correct answer from the options given below :

(1)   Both Statement I and Statement II are true

(2)   Both Statement I and Statement II are false

(3)   Statement I is true but Statement II is false

(4)   Statement I is false but Statement II is true

Options :

177795421. 1

177795422. 2

Question Label : Comprehension

This particular scepticism of the reach of reasoning ——(I)—— not yield – nor (as Appiah makes clear) is it intended to yield – any ground for not using reason to the extent one can, in ——(II)—— the idea of justice or any other notion of social relevance, such as identity. Nor does it undermine the case for our trying to persuade each other to scrutinize our respective conclusions. It is also important to note that what may appear to others as clear examples of 'unreason' may not always be exactly that. Reasoned discussion can accommodate conflicting positions that may appear to others to be 'unreasoned' prejudice, without this being quite the case. There is no compulsion, as is sometimes ——(III)—— to eliminate every reasoned alternative except exactly one.

In the above passage there are blanks, each of which has been numbered. Find out the appropriate option in each case to replace the given numbers.

Given below are two statements : One is labelled as Assertion (A) and the other is labelled as Reason (R).

"I wish it were possible."

Assertion (A) : Despite the fact that the above sentence lacks subject-verb concord, as per the English Grammar, it is a syntactically correct sentence.

Reasons (R) : It is a syntactically correct sentence because in subjunctive mood (of verb) even singular subject is followed by a plural verb.

In the light of the above statements, choose the correct answer from the options given below :

(1) Both (A) and (R) are true and (R) is the correct explanation of (A)

(2) Both (A) and (R) are true but (R) is NOT the correct explanation of (A)

(3) (A) is true but (R) is false

(4) (A) is false but (R) is true

All the great religious teachers of mankind have insisted on this : that men ought not to live for themselves alone. We ought not, they have said, to spend all our time and energy in getting just what we want for ourselves, power and money and importance in the world; we ought to serve something greater than ourselves, whether a god or a cause or our fellowmen. It is by serving this something greater that men will forget themselves and so achieve happiness. This or something like it is what the great religions have taught, and it is one of the most important of the things that civilization means. It is also the hardest to learn and practise; in fact, most people have found it much too hard.
