VISION & MISSION

VISION

To be a global leader in the field of open, distance and online education; promoting life-long learning, using cutting-edge technology across geographical regions.

MISSION

Our mission is to be an internationally acclaimed premier institution of open, distance, and online education, to influence the direction of learning in the future and make a real impact in the fields of research and education. To empower the learners by providing 21st-century skill sets through a wide array of professional, academic, and skill-based courses. To enable a dynamic learning behaviour amongst learners across society reaching the masses at their doorstep. Our commitment towards excellence and inclusivity drives us to equip our lifelong learners to thrive in a global landscape shaping a bright future.

PREAMBLE

In 2022, the University of Delhi established the Department of Distance and Continuing Education (DDCE), Faculty of Open Learning, and the Open Learning Development Centre (OLDC) under the auspices of the Campus of Open Learning (COL). The DDCE encompasses a variety of disciplines, offering distance learning programmes in fields such as Commerce, Economics, Education, English, Environmental Science, History, Hindi, Mathematics, Political Science, Punjabi, Sanskrit, Urdu, Management, Financial Studies, Library and Information Science, Computer Science, and Psychology.

The School of Open Learning under the aegis of COL, established in 1962, initially provided conventional programmes in humanities and commerce. Its first batch had around 900 students. Over the years, it has expanded significantly and now serves over four lakh students across various disciplines. This growth has been paralleled by the establishment of regional centers: the South Study Centre at Moti Bagh (1990), the West Regional Centre at Keshav Puram (2007), and East Regional Centre at Tahirpur, East Delhi. In 2022, the DDCE launched six new professional courses, including Master of Business Administration (MBA), Master of Library and Information Sciences (MLISc), B.A. (Hons.) Economics, Bachelor of Management Studies, Bachelor of Business Administration (FIA), and Bachelor of Library and Information Sciences (BLISc). The B.A. (Hons.) Psychology Programme was introduced in 2023.

The School of Open Learning provides higher education opportunities, particularly for those who are employed or unable to attend regular college due to various constraints. The flexible distance education mode is designed to help students achieve higher education and vocational skills through well-structured course materials provided at the time of admission, supplemented with video lectures and academic counseling sessions at various Learning Support Centres. Experienced faculty members are available for mentoring and counseling at the main campus. Admission criteria and examinations adhere to the norms of the University of Delhi, which confers degrees upon DDCE students as it does for those in its constituent colleges. Beginning in the 2022-23 academic session, the University of Delhi adopted the National Education Policy (NEP) 2020 and introduced the Undergraduate Curriculum Framework (UGCF) 2022.

VICE-CHANCELLOR'S MESSAGE

A warm welcome to all!

I feel heartfelt joy with greetings to all of you for the upcoming academic year 2025-26 at the Department of Distance & Continuing Education (DDCE), School of Open Learning (SOL), under the aegis of the Campus of Open Learning, University of Delhi. With its dynamic approach, the Department has continuously demonstrated excellence in addressing the educational needs of students nationwide, providing affordable and accessible education. Its unwavering dedication to academic inclusivity has dramatically influenced lives of students from various cultural and social backgrounds.

In the year 2022, the department (DDCE) made a significant resurgence in Distance Education and Open Learning by launching six new job-oriented professional Programmes. These Programmes were painstakingly designed to address various global challenges through the holistic development of students, preparing them to become competent professionals, service providers, policymakers, managers, librarians, and entrepreneurs. In today's interconnected and interdependent world, it is imperative for individuals to be capable of dealing with problems with a global vision, and I am confident that these Programmes will harness the nation's human resources to produce future leaders and nation-builders. With this approach, the department has taken new steps, such as sports policy, postal delivery of SLM etc. at the beginning of the year 2025.

I welcome the incoming batch to this esteemed institution and wish them success in their academic and professional. Best wishes to the Department for a promising new beginning. I am assured of the enthusiastic participation of all stakeholders at the Department of Distance & Continuing Education, School of Open Learning, under the auspices of the Campus of Open Learning, University of Delhi.

Best Wishes!!

Prof. Yogesh Singh

DIRECTOR'S MESSAGE

Dear Students,

It gives me immense joy to extend a warm welcome to all of you to the Department of Distance & Continuing Education (DDCE), School of Open Learning (SOL), under the auspices of the Campus of Open Learning (COL), University of Delhi. The institution was established in 1962, being a pioneer institution in open and distance higher education, in its 63-year history, it has provided quality education to millions. The institution is committed to achieving its institutional goals with an inclusive and innovative approach. In its decades' journey, millions of individuals from economically and socially weaker backgrounds have benefited from accessing higher education, contributing significantly to the "Education for All" initiative.

Traditionally, the DDCE/ SOL has offered programmes in Commerce and Humanities. As per the need of the hour, we expanded our offerings with six new Management and Library and Information Science programmes in the academic year 2022-2023. These programmes are designed to be professionally and vocationally oriented, aligning with the guidelines of NEP 2020. Our curriculum meets the standards of leading universities in India, and these flexible programmes enhance employment prospects with a student-friendly fee structure. We emphasize hands-on experience, supported by self-paced learning, updated study materials, and Academic Counselling Sessions (PCP classes). The strategic use of ICT and multimedia technologies ensures we meet the educational needs of students nationwide. All of these have benefited the students to compete with regular students in holding meritorious positions.

The Department is dedicated to democratizing higher education by inspiring and developing students into committed professionals and entrepreneurs. Our expanding higher education system emphasizes skill development to enhance employability, equipping students with essential analytical and soft skills. Through a commitment to academic, professional, and holistic excellence, we strive to inspire, nurture, and guide our students to think progressively, adopt value-based perspectives, and uphold ethical standards. This programme will be a crucial steppingstone in your personal, academic, and professional growth. We wish you great success and numerous milestones in your future endeavors. Best wishes for your health, happiness, and a prosperous future with us.

Best Wishes!!

Prof. Payal Mago

PRINCIPAL'S MESSAGE

Dear Aspiring Students,

For me, it is a delightful moment to welcome you to the School of Open Learning (SOL), under the auspices of the Campus of Open Learning, University of Delhi. Established as a pioneering institution, it has made a significant mark in India's Open and Distance Education field. Since its inception, the institution has been unwavering in its commitment to excellence in distance learning, providing accessible education to a diverse student body.

The SOL is renowned for its exceptional learning programmes tailored to meet the demands of the twenty-first century. It has been instrumental in fulfilling the educational aspirations of economically and socially disadvantaged students who face barriers to higher education. Over the years, the SOL has grown significantly, offering high-quality educational opportunities and focusing on character building. It stands as a beacon of hope, promoting moral values, community development, and equitable access to education amidst evolving economic, social, and cultural landscapes.

The School of Open Learning provides higher education opportunities particularly for those who are employed or unable to attend regular college due to various constraints. The flexible distance education mode is designed to help students achieve higher education and vocational skills through well-structured course materials provided at admission, supplemented with academic counselling sessions at various Learning Support Centres. This year, onwards we have dedicated a call center to address student grievances. Through continuous support from faculty, staff, and students, we have turned challenges into opportunities. Initiatives such as updated study materials, online services, and fee concessions for disadvantaged students highlight our commitment to a student-friendly approach. Also, a fee waiver for meritorious female students who secure an 8.5 CGPA or above encourages women to excel in education. We hope your association with the School of Open Learning will be a cherished and enriching experience. Best Wishes!!

Undergraduate Curriculum Framework (UGCF)

The UGCF 2022 underlines the historical perspective, philosophical basis, and contemporary realities of higher education, as enshrined in the National Education Policy (NEP) 2020 and endeavours to synchronize these cornerstones, while charting the road ahead for the state of higher education in the country.

The University of Delhi, a premier institute of teaching, learning, and research in higher education, acclaimed nationally and internationally, aims to acquire excellence in education and contribute to nation-building in the twenty-first century. Being a central University, mandated to act as the torch bearer in expanding the horizons of human resource development - through the expansion of higher education - it has always strived for constructive and meaningful innovation: a regular feature in its undergraduate curriculum development over the years. This is attested to by the periodic revision of its undergraduate curricular framework over the decades, especially in the last two decades. The University aims to keep pace with global trends in higher education in the new millennium. Realizing the critical importance of education in enriching the youth of our nation; the focus is on skill development, through innovative and practical oriented teaching-learning.

The University is constantly exploring the possibility of further restructuring and refining its undergraduate curriculum framework, in keeping with the objectives and underlying philosophy of the NEP 2020. In 2021, around 65 per cent of Indians were under 35 years of age - giving the country a distinct demographic advantage. A skilled workforce can contribute immensely to national growth in the digital age.

The UGCF 2022, not only embodies the heart and soul of the NEP 2020 in letter and spirit but outlines a teaching-learning framework that aims to attract young minds towards research, innovation, apprenticeship, social outreach, and entrepreneurship, while learning and gaining knowledge in the truly charged academic environs of the University and its constituent colleges. The Department of Distance and Continuing Education/ School of Open Learning has also adopted UGCF 2022 in all its undergraduate courses.

Courses and Credits

Under the National Education Policy (NEP), the UGCF prescribes the following types of Courses for the students to study through eight semesters in four years with options of exit after completion of a year of study. Each of these courses is assigned specific credits wherein a credit is defined as the hour(s) per week devoted for lecture/practical in the particular course. The number of credits to be earned per semester is 22 which amounts to a total of 176 credits at the end of eight semesters in four years of study. These courses along with distribution of credits are given below:

Discipline Specific Core (DSC) is the core credit course of a discipline. The rigour of the DSC will allow students to develop critical thinking skills in their chosen field of study.

Discipline Specific Elective (DSE) is offered from the 3rd Semester onwards. This course is from the chosen discipline, elevating their understanding and expertise in the chosen field.

Generic Elective (GE) is a pool of courses that are meant to provide multidisciplinary or interdisciplinary education to students. It is offered by various disciplines of study (excluding the GEs offered by the parent discipline), broadening the horizon of the student's knowledge.

All DSC, DSE and GE courses are assigned 4 credits each.

Ability Enhancement Course (AEC) is offered in the first four semesters. These courses are based on the content that leads to knowledge enhancement through various areas of study. The areas of study are Language and Literature, and Environmental Science and Sustainable Development.

IL is a pool of Indian Languages in the 8th Schedule of the Constitution

Skill Enhancement Course (SEC) is offered in the first six semesters. It envisages imparting life skills as well as technical and professional skills, transmogrifying them into job-ready individuals.

IAPC refers to Internship/Apprenticeship/Project/Community Outreach

Value Addition Course (VAC) is offered in the first six semesters. These courses strive to inculcate ethics, culture, Indian Knowledge systems, constitutional values, soft skills, sports, physical education, and similar values in students, which will help in the holistic development of students.

All AEC, SEC and VAC courses are assigned 2 credits each.

UGCF provides students with an opportunity to acquire Certificate/Diploma/Honours/Major/Minor/ in any discipline depending on the credits earned by the student under multiple exit option.

- **Undergraduate Certificate:** Exit after completing One Year of study with total of 44 credits in the field of Study/Discipline.
- **Undergraduate Diploma:** Exit after completing Two Years with total 88 credits in the field of Study/Discipline.
- **Bachelor of (field of Multidisciplinary courses of Study):** Exit after completing Three Years with total 132 credits.
- **Honours in Single Discipline:** Exit after completing Three Years with total 132 credits.
- Should students go on to pursue Four years Honours degree (with total 176 credits), Major and Minor shall be awarded to them on fulfilment of certain conditions.

How to choose your Programme/Course

Under UGCF 2022 students can choose a programme of study under Arts or Commerce streams subject to the exit options stated above and given the eligibility criteria for admission into the programme. Please note that to pursue a single core discipline which leads to an Honours Degree in that discipline after completion of 3 years of study with six semesters, a student has to take 3 discipline courses in each semester. Besides this, the student has to study one course each from GE, AEC, SEC and VAC from their respective pools. If the student wants to pursue an undergraduate degree with two Core disciplines which is equivalent to B.A.(Prog), then he/she has to follow the steps given below:

1. First, choose two discipline courses offered by two different departments. Denote these department/ course as A and B where 'A' stands for the course in which the student may do a major during the academic journey. Accordingly, course 'B' will become his/her non-major or minor course. For example, if a student wants to pursue a combination of Economics and Political Science where economics is major then the student will study two courses from economics and one from political science.
2. Second, the student will be studying two courses under 'A' - denoted as 'A' and 'A1' for 1st Semester and 'A2' for 2nd Semester and so on, given on the page 12 and one course under 'B'.
3. In this manner, under B.A. (Prog.) with two core disciplines, a student will study three discipline papers along with one course each from GEC, AEC, SEC and VAC from their respective pools.
4. For B.Com. a student will study three courses from the commerce discipline. In addition, students will study one course each from GEC, AEC, SEC and VAC from their respective pools.
Note that GEC, AEC, SEC and VAC are compulsory courses with internal choice, whereas students have an option to choose their discipline courses (DSC).

Attention Regarding GE Course –

NOTIFICATION

[E.C Resolution No. 52-38 dated 08.12.2022]

The range of Generic Electives (GEs) offered to certain category of students of B.A./B.Com. Programme under UGCF 2022 have been revised keeping in view their multidisciplinary nature and interest of students as under:

- i. Students of B.A. Programme with two languages as the core disciplines be offered the open pool of Generic Electives (and not restrict them to choose only the GE-Languages)
- ii. Students of B.A. Programme with one language as the core disciplines be offered to study only one GE-language (which will be two courses of the same language that may be studied as GE-1 and GE-3 or GE-2 and GE-4). The other GEs shall be from the open pool of GEs.
- iii. B.A./B.Com. Programme students who have never studied any Modern Indian Language (MIL) up to 8th Class shall be offered the open pool of GEs.

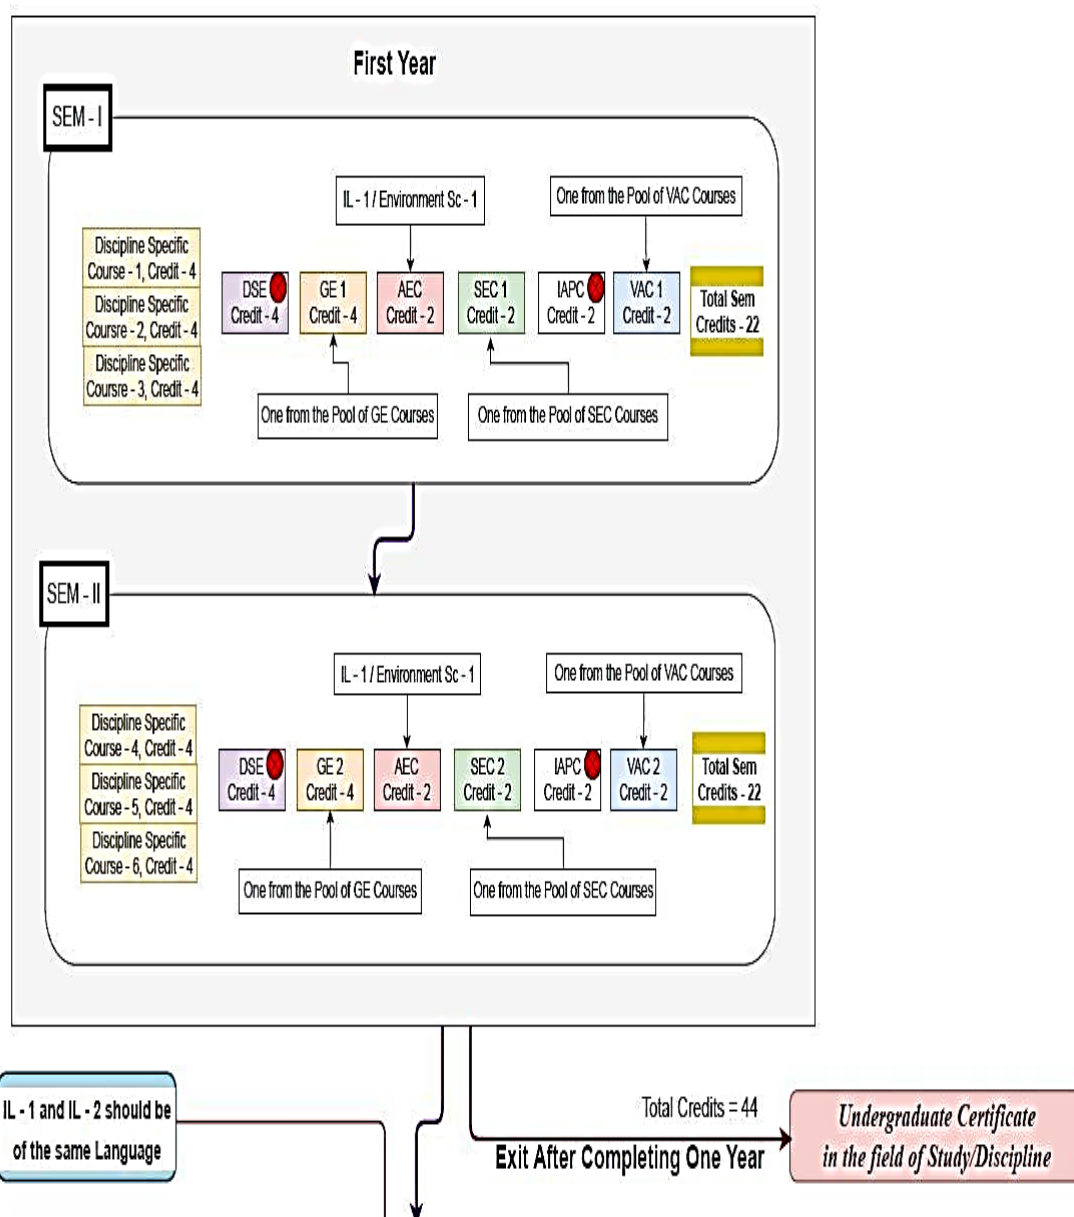

For Structure of UGCF please refer to the chart provided below:

Structure of UG Single Core Discipline Program

The Programme prepares students to thrive in a dynamic business environment, whether in corporate roles, startups, or independent business ventures.

4.2 BMS Course Structure, Based on National Education Policy

Course Structure

The BMS Programme follows a structured approach, ensuring that students develop expertise in essential management disciplines.

- First year (Foundation Course):

The first year focuses on core management subjects, including Principles of Management, Business Communication, Accounting, Business Analytics, and Statistics for Business Decisions. These courses provide students with a broad understanding of business operations and prepare them for advanced specialization.

- Specialization from Third semester onwards:
Starting from the third semester, students can choose a specialization based on their interests and career aspirations. The available specializations include:
 1. Finance – Covers financial management, investment analysis, risk management, and corporate finance.
 2. Marketing – Focuses on consumer behavior, branding, digital marketing, and sales management.
 3. Human Resource Management (HRM) – Includes talent acquisition, organizational behavior, employee relations, and HR policies.

- Technology and Practical Learning:

The curriculum integrates subjects like Business Analytics, Quantitative Techniques, and Organizational Behaviour, requiring students to be comfortable with technology, business software, and data-driven decision-making. To enhance learning, the department organizes guest lectures by industry experts, enabling students to gain practical insights and expand their professional networks.

Department of Economics

The Department of Economics offers B.A (Hons.) Economics and B.A (Prog.) with Economics as a Major and Non-Major subject respectively. Economics is also offered as a Generic Elective (GE) course for students who are pursuing other Major subjects offered by various departments but are at the same time interested in studying Economics.

Course Suitability

Economics is a multi-disciplinary subject. Knowledge of mathematics and statistics is essential to acquire a degree in Economics Honours and Major in Economics under B. A Programme. In Semester I, students are introduced to all the basic tools of economics which are drawn from the fields of mathematics and statistics respectively so that they could get a head start with the course.

About the B.A. (Hons.) Economics:

The B.A. (Hons.) Economics curriculum provides a platform to learn concepts, theories and empirical evidence in the field of Economics. It offers students a rational framework for understanding and analysing the actions of economic agents such as households, firms, government and other institutions and their inter-relationship. Besides the core papers, the curriculum also provides opportunity to select elective courses from a range of options that are currently relevant. As one of the flagship courses offered by the University of Delhi, honours in economics prepare the learners to successfully opt for various career paths, such as academia, law, management, journalism, government, and many more. The Programme aligns with international standards in the field of economics and is on par with the education received by undergraduate students at the world's top universities.

Career Opportunities:

- After completing the course students can go for many career options as listed below:
- Researcher, Professor in higher educational institutions/ Teacher in schools
- Government think-tank and economic consultant / advisor in Ministries / Public Sector and other Autonomous bodies like NITI Aayog etc.
- Civil Services and specific Jobs like Indian Economic Service and other services.
- Private Corporate Sector and Banks and other Financial Institutions etc. which have a huge demand for Economists.
- Economists and other specific jobs in international organisations such as IMF, World Bank, UNDP, etc.
- Data analyst

Department of English

The Department of English is one of the oldest departments at the School of Open Learning. The department has experienced faculty with specializations in various facets of literary studies. The faculty is responsive and is always available for consultations and guidance, as and when needed by the students. The Department offers papers for the B.A. (Hons) English Programme and various DSE, GE, GE (Language), SEC papers for other Undergraduate Programmes. A short description of the B.A (Hons) English course is given below. This is followed by a short description of the papers offered for other Undergraduate Programmes.

About B.A. (Hons) English

This is a prestigious undergraduate course offered by Delhi University. It offers a foundational understanding of the domain of literature and culture in its broadest sense. You will be engaging with various genres like poetry, fiction, and drama. This course will also equip you with specific skill sets that are necessary to analyse and critique literary and cultural texts. You will explore ways in which literature reflects, presents, or even influences the changing socio-cultural landscape in any given society.

Career Opportunities

It is important for the student to understand that this is not a professional course that lands you a job after graduation. Job opportunities would depend, largely, on the skill sets that you develop during your graduation and other additional qualifications that you acquire after you graduate. Generally, students of literature can find openings in the areas of journalism, editing/ proofreading, book publishing, and teaching. Further, other areas, like law, civil services, and advertising are open to you, subject to their entry requirements. Please keep in mind that this programme demands a certain amount of familiarity with literature in general, good reading habits, and a reasonable command over the English language.

What is Expected of You

The B.A. (Hons) English course is demanding, and you are required to have some skills to negotiate and do well in this course. It is expected that you already have reasonably good language skills and some familiarity with English literature in general. This course entails extensive reading and interpretation of literary texts as well as secondary material. Hence students with high achievement levels in English language and good reading habits are likely to do well. You should note that the self-learning materials provided by the college are not textbooks and should not be used as a substitute for textbooks. They should be used only after you have read the primary textbooks prescribed for you in the syllabus. The self-learning material is uploaded on the website www.sol.du.ac.in.

Before you make a final decision about joining the course, please do spend some time going through the prescribed textbooks and self-learning material. It will give you an idea of the kind of demands that the course will make on you. Hopefully, this will clarify some basic issues regarding the course and help you in making an informed choice.

Department of Political Science

About the Department

The Department of Political Science at the School of Open Learning (SOL), University of Delhi, is one of the largest departments, catering to a vast number of students every year. With a strong academic tradition, the department has played a pivotal role in shaping the political and analytical thinking of generations of students.

The department has been home to several distinguished scholars and faculty members, including O.P. Gauba, a renowned author whose books on Political Theory and Political Ideologies have been widely used in universities across India. His contributions have significantly influenced the way Political Science is taught and understood in the country.

About the Programme (BA Prog and BA Hons.):

The department offers two programmes at the undergraduate level - B.A. (Prog), B.A. (Hons.), providing students with a comprehensive understanding of political systems, governance, international relations, and public administration.

The curriculum and self-learning material is designed to provide students with a strong foundation in Political Science by engaging them in conceptual debates, theoretical perspectives, and real-world applications. The courses help students develop analytical skills necessary for understanding governance, public administration, and international relations.

The B.A. Prog and B.A. (Hons.) in Political Science are particularly popular, attracting students who wish to explore various aspects of politics in depth.

Course Structure

The courses offered by the department cover all major sub-disciplines of Political Science, including:

- Political Theory
- Political Thought
- Comparative Politics
- Public Administration
- International Relations
- Political Processes in India

The B.A. (Prog.) is offered with the students getting an option to choose one minor subject from among History, Economics, Education, and Psychology.

In BA (Hons), students must choose one of these three GE subjects: History, Economics and Psychology.

3. Career Opportunities

Graduates from the Department of Political Science have diverse career opportunities in:

Government and Civil Services: Preparation for UPSC, PSC, SSC, and other competitive exams.

Academics and Research: Further studies in M.A., M.Phil., Ph.D., or research and teaching roles in colleges, universities and think tanks.

Media and Journalism: Opportunities in print, electronic and digital media, leveraging strong writing and analytical skills.

Law and Judiciary: Pursuing LLB and LLM for a career in legal services and advocacy.

Non-Governmental Organisations (NGOs): Engaging in policy research, civil society organisations, and CSR.

Political and Risk Consultancies: Exploring new-age roles as political analysts, risk consultants, election strategists, and policy advisors, working with corporates and political parties.

Public Administration and Policy Making: Working with government bodies, policy institutions, and international organisations.

Department of Psychology

About the Department:

The Department of Psychology, DDCE, SOL, COL, University of Delhi offers students a holistic education in the field of psychology, with an emphasis on creating a strong theoretical basis, critical thinking, research skills, and practical experience, the course caters to the dynamic outlook of psychology as a field continuously adapting to the advances and research possibilities. Learners are allowed to advance at their own pace and take a multidisciplinary approach to their education. With the implementation of the National Education Policy, the flexibility offered by the programme is centered on the student, ensuring a provision for adaptability, mobility, and employability.

We offer B.A. (Hons.) Psychology and B.A. Programme with Psychology.

About the Honours Programme:

The undergraduate Programme in Psychology at DDCE, Campus of Open Learning provides students with a solid foundation in the principles of psychology with a focus on scientific inquiry, critical thinking, and ethical practice.

The Bachelor of Arts Honours programme in Psychology is intended to provide the learner with a solid grounding in the fundamentals, concepts, processes, and applications of psychological principles in a variety of settings. The programme also includes a variety of courses that are interdisciplinary and that enhance students' abilities. These courses allow students to investigate topics in areas other than the scientific field of psychology.

The diverse curriculum covers various subfields of the discipline, including courses in developmental psychology, abnormal psychology, social psychology, statistics, organisational psychology, cognitive psychology and many more. The students are trained in a wide range of courses as per the curriculum including core papers, elective papers, value addition and skill enhancement papers to encourage the overall growth and development of the students. In addition, students are encouraged to participate in research projects and internships to gain practical experience in the field.

About the B.A. Programme with Psychology:

The Bachelor of Arts Programme in Psychology offers students an opportunity to have a rich interdisciplinary education, blending the insight of psychology with a diverse array of various subjects, providing a comprehensive curriculum encompassing the core psychological courses with complementary pedagogy of subjects from another discipline. Students gain a deep understanding and insight into human behaviors in place of society, highlighting both theory and practical application, the programme aims to equip students with valuable analytical, critical thinking and interpersonal skills crucial for a wide range of career paths. Graduates come forth fully prepared to establish themselves in the field of psychology as a clinical psychologist, counsellor, Human resource person, researchers, educational psychologists, school counsellors and beyond, simultaneously benefitting from a vibrant campus community and extracurricular opportunities that enrich their overall university experience.

Why should you join this course?

Psychology is the scientific study of human behaviors and mental processes, and its purpose is to provide a better understanding of how people behave. Through the study of psychology, one can obtain a more profound comprehension of the reasons behind why people think, feel, and behave in the ways that they do.

This course prepares students for a variety of careers in fields such as healthcare, education,

research, social services, and business. Graduates from this field are well-prepared for professions in research, counselling, and therapy, as well as human resources, marketing, research, and education. They are also well-prepared for future studies in psychology or associated fields.

Psychology classes can help you learn strategies for conflict resolution, effective communication skills, soft skills and how to create positive connections with other people. It helps you to improve your ability to communicate and interact with others. Studying psychology can also help individuals better understand and manage their thoughts, feelings, and behaviors, which can lead to enhanced personal well-being because of the individual's increased ability to control these aspects of themselves.

Pursue a Career in Psychology:

If you are interested in becoming a psychologist, therapist, counsellor, or another mental health professional, enrolling in a psychology course is an essential step towards attaining your career goals. But the careers in psychology can be endless, psychology is one of the fields which is multidisciplinary. In all aspects of personal and professional life, it can be applied to gain a deeper understanding of the event, individual or environment. Some of the prominent fields of career options after pursuing psychology include:

1. **Clinical Psychologist:** Psychologists who specialise in clinical practice work directly with patients to identify and treat a variety of mental health conditions utilising a wide range of different approaches to psychotherapy.
2. **Counselling Psychologists:** They collaborate with individuals or groups to help them improve their mental health and well-being. They typically use talk therapy and other interventions in their practice. Counselling psychologists are also known as clinical psychologists.
3. **School Psychologists/School Counsellors:** They are professionals who work in schools to assist students in their social, emotional, and intellectual development. They frequently collaborate with both teachers and parents to construct educational conditions that are conducive to student learning.
4. **Industrial-Organizational Psychologists:** These are those who apply the concepts of psychology to workplace settings. They seek to increase employee performance, as well as job satisfaction and the general efficacy of organisations.
5. **Forensic Psychologist:** Psychologists who specialise in forensic work collaborate with other experts in the legal field to assess and treat persons who engage in the criminal justice system. These individuals include defendants, witnesses, and victims.
6. **Social Worker:** A professional who assists individuals and families in overcoming several difficulties, such as issues related to mental health, poverty, and substance misuse.
7. **Human Resource Professional:** Specialists in human resources are responsible for the recruitment, training, and retention of personnel. They frequently apply psychological theories and concepts to devise efficient organisational structures and policies.
8. **Army Psychology:** Specialist in this field also known as military psychologist, serves in the army in a mental health professional capacity providing support and care to active-duty personnel, veterans and their families including diagnosis and treatment of mental health conditions. Another avenue of psychological application in the army is as a scientist working with the Defence Institute of Psychological Research, researching psychology for armed forces personnel, the work constitutes training in selection, combat stress management, soft skill training and development of tools for selection and placement.

These are just some of the many diverse employment options that are open to individuals who have earned degrees in psychology, but there are many more. There are a lot of different possibilities to think about, and the ones you choose will depend on your abilities and interests.

Department of Commerce

About the Department:

The Department of Commerce at the School of Open Learning is known for enrolling the highest number of students in its Bachelor of Commerce (B. Com) Honours and Bachelor of Commerce (B. Com) Programme. The department is committed to address the evolving needs of society by providing students with a contemporary curriculum, delivered through innovative pedagogical methods. The Department's rapid growth is evident not only in its increasing student base but also in the continuous introduction of novel academic programmes. This expansion reflects the department's responsiveness to the changing dynamics of the educational landscape. At the undergraduate level, the Department offers both the B. Com (Honours) and B. Com (Programme), ensuring that students are equipped with the knowledge and skills required to succeed in an increasingly competitive global economy.

B. Com Honours

The 'B. Com (H)' Programme is strategically designed to equip students with the essential skills, knowledge, and professional competencies required in the dynamic business environment. This Programme offers a comprehensive curriculum that spans various areas of business and technology, preparing students to thrive in a competitive global market. Students are not only prepared for professional careers but also become self-reliant individuals with a deep understanding of various business functions.

The curriculum emphasizes practical learning, integrating innovative teaching methods that mirror real-world business scenarios. It includes a broad spectrum of courses, incorporating both discipline-specific and interdisciplinary content, in line with the guidelines of the National Education Policy (NEP) 2020. The key disciplines in the Programme include Accounting, Finance, Human Resource Development, Marketing, International Business, Law, and Taxation, among others.

Moreover, the Programme enriches students' academic experience through the inclusion of Generic Elective (GE) courses from non-commerce subjects, allowing for a broader intellectual exposure. Additionally, it offers Skill Enhancement Courses (SEC), Value-Added Courses (VAC), and Ability Enhancement Courses (AEC), which aim to provide practical skills, further knowledge, and personal development opportunities. These courses ensure that graduates are well-rounded, job-ready professionals prepared for diverse challenges in the business world.

B.COM (P)

The study of Commerce plays a pivotal role in bridging the relationship between society and the business world. In light of the rapid technological advancements shaping modern society, the B. Com (P) offered by the Department is designed to prepare students to effectively navigate the contemporary business environment. The programme aims to foster a student body capable of addressing the demands of the modern business landscape, equipping them with the knowledge and skills required to excel in a variety of professional contexts.

This programme offers students the opportunity to explore diverse employment and entrepreneurial avenues, encouraging self-reliance and personal growth. The introduction of Skills Enhancement Courses (SEC) further empowers students by enabling them to acquire and apply new competencies, contributing to both their individual development and societal progress. These courses are structured to provide practical, real-world skills that align with the evolving needs of the business world.

The B. Com Programme includes a wide range of courses from various disciplines, such as Accounting, Finance, Human Resource Development, Marketing, International Business, Law, and Taxation, ensuring a comprehensive foundation in business-related fields. Additionally, students have access to Generic Electives (GE), Skill Enhancement, Value-Added, and Ability Enhancement Courses (AEC) in subjects outside the traditional commerce domain. This multidisciplinary approach not only broadens students' academic horizons but also enhances their adaptability and overall competence in diverse sectors.

Career Opportunities

Students have various career paths to explore based on their interests and ambitions after completing a B. Com (P) and B. Com (H) degree. Academically oriented students may pursue a Master of Commerce (M. Com), which opens opportunities for a career in academia or research. Alternatively, students with an interest in the corporate sector can opt for a Master of Business Administration (MBA), which enhances business and management skills, preparing them for leadership roles.

Many students from the Commerce stream also pursue professional qualifications such as Chartered Accountancy (CA) or Company Secretary (CS), allowing them to specialize in fields like accounting, auditing, and corporate law. Another promising option is preparing for Civil Services, offering opportunities in public administration and governance.

Additionally, the B. Com (P) and B. Com (H) degree equips students with the entrepreneurial skills needed to start and manage their own businesses successfully, contributing to economic growth and innovation in the business sector.

Department of Computer Science

About the Department

The Department of Computer Science at the School of Open Learning, University of Delhi, stands as the nucleus of innovation and technological advancement. Nestled within one of India's most prestigious universities, it epitomizes academic excellence, fostering a dynamic environment that nurtures the brightest minds in the field. At its core, the department is committed to providing accessible, high-quality education to students from diverse backgrounds, embracing the ethos of inclusivity that defines the School of Open Learning. With a focus on open and distance learning, it extends its reach beyond traditional boundaries, catering to students who seek flexible pathways to academic success.

Led by a team of distinguished faculty members and through its interdisciplinary approach, the department of computer science acts as a nurturing environment for the upcoming generation of digital innovators, empowering students with the skills and knowledge necessary to navigate the ever-evolving landscape of computing. At the forefront of research and development, the department fosters groundbreaking discoveries in data analysis, cyber security, artificial intelligence, deep learning, design and analysis of algorithms, data structures, programming languages, data mining, predictive analysis, information technology management, e-business, software engineering, and beyond. Its faculty members, renowned for their expertise and dedication, nurture a culture of problem solving, critical analysis and exploration, inspiring students to push the boundaries of possibility. With state-of-the-art facilities and a vibrant community of learners, this department cultivates a dynamic environment where creativity flourishes, ideas converge, and transformative technologies emerge to shape the future.

The Department of Computer Science at the School of Open Learning is not just a place of learning; it's a vibrant community where curiosity is celebrated, ideas are exchanged, and boundaries are pushed. Whether pursuing undergraduate or postgraduate studies, students embark on a transformative journey that prepares them for leadership roles in academia, industry, and beyond. With its unwavering commitment to excellence and innovation, the department continues to shape the future of computer science education and make a lasting impact on the world.

B.A. (Prog) with Computer Applications

An interdisciplinary approach is provided by B.A. (Prog) with Computer Applications, which enables students to mix computer science principles with expertise from business, social sciences, or the arts. While concepts in computer science encourage creativity, critical thinking, and problem solving across domains, other topics improve students' communication ability, cultural sensitivity, and global views. Apart from this to strengthen the programming skills in students, they are provided with hands-on practical classes on weekdays at various regional centers of SOL.

After completing B.A. (Prog) with computer applications students can further pursue masters in areas MCA, MSc (IT), M.A. (Animations), MBA etc. Also, students can work in software development, IT consulting, project management, digital marketing, data analysis, teaching, and other fields after completing their B.A. (Prog) with computer applications.

Major Courses

B.A. (Programme) Computer Applications course structure starts with foundational courses covering programming languages, data structures, data interpretation and visualization. These courses build the core understanding necessary for more advanced topics.

Minor Courses

Minor disciplines offered in combination with computer science are Mathematics and Psychology. Student must choose anyone of these two as per his interest and subjects studied in school prior. Below we provide a brief of both disciplines and their benefit in alignment to computer science.

Mathematics

Studying mathematics as a minor with computer science provides a solid theoretical foundation for algorithms and computational methods, enhancing your ability to design efficient and innovative solutions. Mathematics deepens your understanding of core concepts such as calculus, linear algebra, and discrete mathematics, which are essential for advanced fields like cryptography, machine learning, and data analysis. This combination not only strengthens your analytical and problem-solving skills but also opens opportunities in research and specialized technical roles that require a robust mathematical background.

Psychology

A minor in psychology with computer science offers insights into human behaviour and cognition, which are invaluable for designing user-friendly software and improving human-computer interaction. Understanding psychological principles helps in creating intuitive interfaces, enhancing user experience, and developing technologies that better meet users' needs. Additionally, knowledge of psychology can be beneficial in fields like artificial intelligence and human-centered computing, where modelling human thought processes and behaviours is key. This interdisciplinary approach can lead to more empathetic and effective technology solutions.

Career Prospects:

Students who complete their B.A. (Prog) with computer applications can work in a range of IT-related fields as well as other fields.

Department of Economics

About the Programme

The Bachelor of Arts (B.A.) Programme at the School of Open Learning (SOL), the University of Delhi, offers a dynamic and flexible curriculum designed to cater to the diverse interests and career goals of students. With Economics as a focal discipline, this Programme provides students with a robust understanding of economic principles while allowing the exploration of other subjects. Under B.A (Prog.) with Economics can be opted as a Major and Non-Major. Economics is also offered as a Generic Elective (GE) course for students who are pursuing other Major subjects offered by various departments but are at the same time interested in studying Economics.

Career Opportunities

After completing the course students can go for many career options as listed below:

- Researcher, Professor in higher educational institutions/ Teacher in schools
- Government think-tank and economic consultants / advisor in Ministries / Public Sector and other Autonomous bodies like NITI Aayog etc.
- Civil Services and specific Jobs like Indian Economic Service and other services.
- Private Corporate Sector and Banks and other Financial Institutions etc. which have a huge demand for Economists.
- Economists and other specific jobs in international organisations such as IMF, World Bank, UNDP etc.

Department of Mathematics

About the Department

Department of Mathematics at School of Open Learning is offering courses from the beginning of the institution as an elective subject of Mathematics in B.A. (Prog.). Mathematics is the backbone of science and study of quality, structure, space, and change. Generally students of mathematics look for patterns, formulate new conjectures, and establish truth by rigorous deduction from appropriately chosen axioms and definitions. Through abstraction and logical reasoning mathematics evolved from counting, calculation, measurement, and the systematic study of the shapes and motions of physical objects.

About the B A Programme with Mathematics

The Department of Mathematics offers BA(Prog) with mathematics as Major. We also offer courses of Mathematics as Minor for other BA(Prog) and Generic electives for Hons. The prerequisite for these Programme or courses is that students must have studied mathematics in the 12th standard.

Career Opportunities

Students having mathematics degrees can easily pursue courses in computer science and networking which provide lots of job opportunities in academic institutions, industries, government offices, social sector and research etc.

Structure of B.A. (Prog.)-Mathematics as Major

Students have to study two Mathematics courses of 4 credits each in every semester as core courses. For more details see the detailed programme structure.

Department of Sanskrit

About the Department:

The Department of Sanskrit began offering Sanskrit to the B.A. Programme students from 1968 and introduced the Post Graduate Programme in Sanskrit in 1985-86 with the vision of our Oriental learning, Culture, Philosophy and Vedic and Classical Sanskrit literature. Our Sanskrit Department provides detailed knowledge of Sanskrit Discipline in ancient and modern view of perspective. The Department is always committed to providing the best study material and learning environment so that the skill enhancement of the students can be increased. The department has three faculty members. Each one of the faculty members is having different areas of specialization comprising the horizon from ancient to contemporary realities as well as eastern to western perspectives. This enables the department nurturing students with holistic perspective towards the life

About the Programme:

The programme is designed to enable students to learn the Sanskrit language. The course provides a deep knowledge of Bharatiya culture and appries students about the rich language system. The course allows the students to go through the topics like Yoga and Ayurveda which not only enhances the knowledge of the students but also make them skilled and competent. The Programme gives scope to enhance skills, ability enhancement, adding value to the pre-existing understanding, critical thinking, connecting to cultural and historical roots through primary Sanskrit knowledge texts and after all developing a sense of oneness. Central to the Programme is the exploration of Sanskrit literature composed through ages, such as Puraṇic texts, Kāvya (poetry), dramas, and philosophical & foundational knowledge treatises like the Vedas and Upaniṣads.

Career Prospects:

After completing the B.A. (Programme) in Sanskrit, the graduates can pursue careers in teaching, research in the different areas of Indian Knowledge System including Yoga, Āyurveda, Vāstu, Jyotiṣa, poetics, drama, Vedic Sciences etc., employment in cultural organizations, publishing, civil services, archaeology as well as opportunities of editing and translating manuscripts. The Programme is a strong base for pursuing higher studies in Sanskrit and related disciplines.

8.3 Open Learning Development Centre (OLDC)

The Open Learning Development Centre is a constituent of the Campus of Open Learning, University of Delhi. Designed to be a resource centre, we provide technical and resource support for developing basic skills as well as advanced expertise in the field of distance education and open learning, while drawing upon academic resources of the University of Delhi.

The objectives and functions of the Open Learning Development Centre (OLDC) is:

- to facilitate the School of Open Learning in converting the currently correspondence- based educational programmes to the open and distance learning mode using educational technologies.
- to provide technical and resource support to plan and design new educational programmes in the open and distance learning mode, to be offered by the Department of Distance and Continuing Education and the School of Open Learning, University of Delhi.
- to initiate and undertake training and capacity building to strengthen the professional and technical capacities of the faculty of the School of Open Learning (SOL), as well as other interested faculty members of the University of Delhi.
- to harness potential of information and communications technologies and facilitate planning, design and execution of innovative approaches to learning to strengthen the teaching & learning processes.
- to initiate and facilitate networking among teachers within the University of Delhi and across universities, for the development of new and flexible teaching-learning practices.

Armed with the aforementioned mandate, the Open Learning Development Centre (OLDC) focuses on enhancing education through innovative learning methods and advanced technology, supported by a range of facilities designed to meet diverse student's needs. By integrating modern technology and pedagogy, we aim to enhance the quality of teaching and provide facilities to follow best practices for curriculum development and assessment.

At the **Content Development Lab** of OLDC, we ensure that the content created for effective pedagogical methods, ensuring qualitative teaching and effective learning for students, is of high quality, adaptable and adaptive according to the educational pursuits and interests of the Open and Distance Learners (ODLs).

The **Advanced Software Development Unit** of OLDC has been continuously engaged in ensuring a hassle-free experience for our 4.5lakh ODLs by resorting to apt tech intervention from time to time. The development of PRAGYAN LMS and COL Radio platform are notable steps in this regard.

PRAGYAN LMS

With the launch of PRAGYAN, a Learning Management System (LMS), OLDC has taken a significant step to redefine open and distance learning provided by the SOL. PRAGYAN facilitates students with a digital platform which allows them to track their performance and identify areas of improvement. By integrating modern technology with pedagogy, PRAGYAN provides students with a dynamic and supportive environment to study and grow.

PRAGYAN has revolutionized the way students at SOL (around 4.5 lakh in total!) learn and interact with their coursework. This innovative platform offers a host of features that enhance the overall learning experience.

One of the most significant benefits of PRAGYAN is the ability to take internal assessments online, directly through the platform, thereby eliminating the need for physical submission. This saves time and provides a more flexible and accessible way to engage with the course material. The PRAGYAN platform offers a comprehensive library of Study Learning Materials (SLMs) that can be accessed anytime, anywhere. These SLMs serve as valuable aids for students, helping them to understand complex concepts and prepare effectively for exams.

PRAGYAN has proven to be a game-changer for SOL students. It helps foster a more interactive and collaborative learning environment. Students can connect with their peers and engage in discussions, sharing insights and ideas. By providing convenient access to online assessments, study materials, and a collaborative learning environment, the platform empowers students to take control of their education and achieve their academic goals at their own pace.

COL RADIO

Campus of Open Learning Radio (COL Radio) offers a digital platform for connecting students worldwide. It provides students with interactive and engaging educational content. Students have access to a range of resources, including lectures by renowned professors, interviews with experts, educational podcasts, academic updates, and other information. It offers students access to the content relevant to their pursuits and interests and supplements the traditional educational system.

COL Radio is run by a dedicated team of educators, content creators, and technical staff who work in tandem to create, curate, and broadcast podcasts. Podcasts are categorized into academic and informative themes. Under the academic theme, it provides material related to various disciplines taught at School of Open Learning by supplementing learning materials with lectures, discussions, and interviews. They enhance classroom learning and provide in-depth knowledge. It also provides a platform for students to express their views and share experiences and talents. By providing a supporting environment that allows learners to express themselves and be creative, COL Radio ensures sustainability to evolve with emerging trends in technology and requirements of education. This flexibility allows COL Radio to remain responsive to the dynamic nature of distance learning and continue delivering high-quality educational content that is relevant to the needs of our large and diverse bunch of ODLs. The platform intends to inform, entertain and inspire through a blend of music, talk shows, and community-driven & community-centric programmes.

By integrating academic enrichment, social advocacy, and financial sustainability, COL Radio enhances educational experiences and empowers students to perform to their full potential. It is a dynamic and responsive platform, evolving with advancements in technology and education so that learners are continually equipped with high-quality and engaging content.

Educational Technology Media

The Educational Technology Media (ETM) Lab at the OLDC is central to help transform education through technology. This facility plays a critical role in the creation of Audio & Video learning materials, designed to enhance the educational experience of our ODLs. Our ETM Lab has taken a significant step in the direction of blended learning experience by producing high-quality audio and video resources, offering students an immersive and flexible approach to learning.

At the heart of the ETM Lab's work is the creation of audiovisual content that complements traditional Self-Learning Materials (SLMs). While SLMs are structured to provide in-depth knowledge, video and audio materials add a new dimension, making learning more dynamic and engaging. These multimedia materials serve as a powerful tool for explaining complex concepts, enabling students to visualize and understand topics more effectively. Whether it's through video lectures, interactive demonstrations, or audiobooks, the team at ETM Lab ensures that students have access to a wide array of learning formats to choose from.

The lab also produces audiobooks, which are immeasurably valuable for students, especially for those who prefer auditory learning or want to study while multitasking. They also cater to students with visual impairments or those who find it easier to absorb information through listening rather than reading.

Another exciting initiative from the ETM Lab is the production of podcasts and interviews with subject matter experts, educators, and thought leaders. These podcasts help students to gain insights into various fields, learn from experienced professionals, and stay updated on the latest trends and developments in education. By incorporating these into our learning ecosystem, we create a well-rounded platform for knowledge sharing and professional growth.

The ETM Lab's efforts are further extended through its collaboration with OLDC's YouTube channel, "COL Radio." Here, the content developed by ETM Lab is made available to a wider audience, providing not only COL/SOL students but also the broader learning community with access to valuable educational resources. Interviews, discussions, tutorials, and video bulletins produced in the ETM Lab are regularly uploaded to keep students informed and engaged with current trends and events. 8.9 SPORTS EXCELLENCE AND INCENTIVE POLICY

(EMPOWERING STUDENTS SPORTSPERSONS AT SCHOOL OF OPEN LEARNING, UNIVERSITY OF DELHI)

A. Main Objectives of the Sports Excellence and Incentive Policy

Encourage Excellence in Sports

To promote and reward outstanding performances in sports by providing cash awards, fee waivers, and recognition to students excelling at international, national, and state-level competitions.

Support and Motivate Participation

To foster inclusivity and increased participation in sports by recognizing achievements across diverse competitions (including para-sports and Special Olympics), thereby creating opportunities for all students.

Ensure Transparency and Fairness

To establish clear and structured criteria for awarding incentives, ensuring an equitable, merit-based system governed by a competent sports committee.

These objectives aim to build a strong sports culture while supporting student-athletes' financial and motivational needs.

Cash award will not be given for tournaments held more than once a year (July–June) of the relevant year. Cash award will be given to the bonafide student (SOL) of the academic year (July–June of the relevant year) for which she/he is applying for the award.

In case of a student securing a position in multiple tournaments in different games/sports, only one highest amount of cash award will be admissible to the student, irrespective of the number of sports/events in which she/he has participated and won a position. For example, if a student wins medals in two or more different games/sports in one year, then only the single highest achievement (in any one of the two or more games/sports) will be considered.

For World Cup/World Championship/Asia Cup/Asian Championship/Commonwealth Championship (4-year cycle), the proportionate cash award will be given for 1 year (1/4), 2 years (1/2), 3 years (3/4), and so on in this 4-year cycle.

In the event of any inconsistency or dispute with respect to this cash award/prize scheme, the interpretation given by the Sports Committee shall be final and binding.

The Sports Committee may convene multiple meetings during the academic year, as and when required, to ensure timely decision-making, grievance redressal, and effective implementation of the policy.

The Sports Committee reserves the right to revise or modify the structure and amount of Cash Awards and Fee Waivers under various incentive categories, based on institutional needs, available resources, and prevailing circumstances.

A student who does not fall under any of the specified incentive categories but demonstrates potential to win medals or represent the SOL in recognized sports events may be provided with sports equipment, kits, or allowances at the discretion of the Sports Committee.

D. Composition of the Proposed Sports Committee

- Director, COL/Nominee – Chairperson
- Principal, SOL – Ex officio member
- One external member to be nominated by the Chairperson
- Four/six members to be nominated by the Chairperson/Competent Authority
